

natural legacy

A Natural Choice

Woven in Yorkshire using 100% British Wool, Natural Legacy coffins and ash caskets are the comforting alternative to the more traditional coffin and are fully approved for burial and cremation.

We are proud to say that our Natural Legacy allows families to say a gentler goodbye to thier loved one.

What is your Natural Legacy?

In Partnership With

 JC Atkinson

FFMA
Federation of Funerals and Cremation
Cremation Approved

Our Natural Legacy products allow families the ability to experience a gentler and more comforting goodbye, while you are safe in the knowledge that they meet ALL required specifications for cremation.

- Visible MDF Charge Board on the base to allow smooth charging both mechanically and manually.
- Reinforced ends to ensure rigidity when charging both mechanically and manually.
- Certified to hold up to 42 stones (266kg) due to handle strengthening.
- Independently tested and certified as burning within all required emission levels with certification available on request.
- Independently Tested and certified as operating with the same burn rate as wood.

Our Natural Legacy is choice and comfort for the bereaved, certified as safe for crematoriums.
